HANDS ON COURSE
INTRODUCTION

This practical course offers more than 25 real clinical exercises, allowing you to practice and improve your current skill set in the area of tooth preparation, isolation, bonding as well as dental photography.

This unique hands-on course consist of minimally invasive preparations for different types of ceramic restorations including veneers, crowns for anterior and posterior teeth as well as In-On-and Over-Lays. Practical and intense exercises include ergonomics and preparation of teeth on upper and lower jaw and different quadrants! 100% practical information based on lateral thinking, fully assisted step-by-step methods and high-end technical hands-on sessions making this among the best in tooth preparation, bonding and ceramic restoration course.

Learn all the secrets, tips and tricks of:

- Protocols for anterior and posterior crown preparations. Full contour veneers.

This comprehensive hands-on course is based on lateral thinking, new techniques, step-by-step methods utilising the latest technology and many exercises to help master optimal aesthetic outcomes. If you are a beginner, you will master tooth preparation with confidence as well as having the ability to manage a vast range of difficult clinical cases. And if you are an experienced dentist, this course will provide you many practical tips that will enhance your current clinical workflow and skill set.
MASTERING TOOTH PREPARATION & BONDING OF CERAMIC RESTORATIONS

DAY 1: MASTERING ANTERIOR PREPARATION: VENEERS AND CROWNS

HANDS-ON COMPONENT

- Silicon indexes to control tooth reduction.
- Type 1 class preps for colour change
- Type 2
- Type 3
- Solving situation with class 3 caries defect
- Solving situation with class 4 caries defect
- Diastema simulation
- Crowding / teeth rotations
- Black triangle
- Window prep
- Full contour veneer for anterior teeth
- Minimally invasive anterior crown

Please note: all caries defects will be made in real-time and will be restored with composites which will assist in understanding the veneer prep design of different clinical cases. The course will allow participants to present cases that will be simulated as exercises and resolved practically as a group.

AGENDA

9:00 am - 10:30 am  
10:30 am - 11:00 am  
11:00 am - 12:30 am  
12:30 pm - 1:30 pm  
1:30 pm - 3:30 pm  
3:30 pm - 4:00 pm  
4:00 pm - 5:30 pm

Course

Course  
Lunch  
Course  
Afternoon tea  
Course
H A N D S - O N C O M P O N E N T

This workshop provides an insight into minimally invasive and precise preparations of posterior teeth in onlays and veneer-lays (upper and lower jaw). Step-by-step techniques will consist of:

- Silicon index for prep control
- Inlay
- Onlay
- Overlay
- Veneer-lay (different types, including veneers for premolars)
- Occlusal veneer
- Imitation of severe caries defects
- Immediate dentin sealing
- Cavity design optimisation, closing undercuts by composite
- Minimally invasive posterior crown

The participants will progress through various exercises including inlay, onlay, veneer – lay preparation, with IDS and deep marginal elevation techniques.
DAY 3: ISOLATION, BONDING AND DENTAL PHOTOGRAPHY

HANDS-ON COMPONENT

- Bonding procedures of veneer and crown step-by-step
- Rubberdam isolation, various techniques and exercises
- Dental photography portrait and artistic pictures

Notes: participants need to bring their own cameras with macro lenses and flash (twin bracket or ring flash).

All exercises included preparation of upper and lower teeth both left and right sides to get best practical components.
Maxim Belograd is the founder of BELOGRAD Academy. He is one of the most well-known international lecturers and trainers in a field of advanced microscope, esthetic, restorative dentistry and endodontics. He visited more than 40 countries with practical courses and lectures as speaker, and doctors from more than 70 countries took part in the BeloGrad Academy project. Maxim Belograd is the first lecturer from the CIS who provided courses on 5 continents and successfully presented his educational programs. Lectures and presentations were conducted during prestigious dental congresses and conferences as well as individual «solo» formats with attendance from 100 to 3000 participants. Hands-on sessions were provided in certified BG training centers all over the world.
